Judge Oresham's name is mentioned a judicial opinion, is in the right place on | country.

When the simple inaugural caremonies When the simple inaugural ceremonies, were taking place at Madison on Monday, Mr. Gregory, the master of ceremonies, in calling the names of the officers elect, who were to take the oath, used the military titles which the gentlemen were in the army, and all of them except one had reved in the war. They were called in the war. They were the war. They were the war to be a war this manner: Cen. Rusk, Capt. Timme, Capt. Harshaw, Corporal Estabrook, Sergeant Thayer, Private Check and Citizen Peterson. Hon. Geo. W. Ryland, lieute ant governor, was not present.

The New York World, democratic, puts its New Year's wish in this form: "Our New Year's wish to the president is that he may devote the second half of his administration to pleasing the domnorate more and the magwarnes less." While the muzwamps have been whitewashed a little now and then by the president, the administration has not been very slow in distributing offices. Over 30,000 postoffices have gone into the hands of democrats in less than two years, besides thousands of other offices

John C. Reid, who has been for sixteen years the managing editor of the New York Times, has been presented by his newspaper friends with a \$400 ring. Among the denors were Charles A. Dana-Henry G. Pearson, Amos J. Cummings, Thomas L. James, William H. Robertson, Truman A. Merriman, Rufus Hatch and Thomas C. Actou. Mr. Reid used to be a Wisconsin boy, and has won great honor in journalism since he went to New York. Another prominent editor of New York City, is Major Bandy, of the carrier to grieve the present well as the present we Mail and Express, who formerly lived in Below, and is a graduate of the college

There comes from Danville, Kentucky this terrible story, and yet one that fits very well the average condition of things in that state. It is said that a man who had never drank spirits was taunted and goaded by an alleged friend into taking enough egg-nog to unbalance his judgment; that he was then invergled into a saloon and plied with Inquor until he fely insensible; and that after he lost consciousness whisky was poured down his throat until be died. The men who did this evidently thought it a capital joke, for even when they realized that their victim was dead they saw no reason for regret or anxiety, but actually put the corpse in a wagon, fastened an insulting placard to it, and paraded the evidence of their crime through the streets. Of course this was nothing less than coldblooded murder, but the murderers have not been arrested.

The Madison Damocrat, in its bitterness of party spirit, says this:

There is scarcely a voting precinct in the state where there are no illegal bal-lots east and nineteen of every twenty of them are east for the republican party, and east too for a consideration and with no thought or care for the public office to be filled.

in answer to this reckless statemen the Milwaukee Sentinel prints the fol-

Why are not some or these republican ballot box stuffers prosecuted and punished? How does it happen that when a man is convicted of inlegal voting, he appears to the convergence of th always turns out to be a democrat? The secretary of the democratic state committee of Illinois in the last presidential campaign, after "who oping 'er up" all the summer and fall for Cleveland and reform, is now in the state prison for stuffing a ballot box and perjuring himself afterwards.

Yes, they are quite all democrats. The election frauds of Chicago two years ago, were committed by democrats. The election frauds in the south, which southern leaders do not pretend to cover up, were the work of democratic politicians. The election frauds in New York city during the chairmanship of Samuel J. Tilder. which Horace Greeley said were the most appalling frauds of the kind ever perpetrated in this country, the frauds in Cincinnati in 1885, the frauds in Wisconsin years ago during the reign of the Forty Thieves," were all committed by

I believe with all the strength of un bonest conviction that the party placed in power by a popular majority should administer the government through the hands of its friends and not of its comies. No other system is practical or can result in public good.

These are the words of Senator Voorhees, and in some respects there are a few grains of common sense in them-But Mr. Voorbees, like the average democrat, and like the average republican as well, does not take a practical view of the question of civil service. The present civil service rules as construed by the democratic examining boards are a farce, as it is a notorious fact that partisanship is so strong on the boards that democrats manage to get the offices and republicans get out. The oivil service law, as it stands lo day, practically stands for a humbug. It is too limited to be of any substantial service to the country. It has been twisted in all sorts of shapes by this administration, and while the republicans were in power hardly a democrat got an office under its provisions. So the party in nower can twist the law in such a way that it will bo a virtual dead lotter to the party out of power. Of course this is not the way a civil service law should be administered, but it is administered just in that way by both parties when a chance is presented. It would be a happy condition of things political in this country if we had STATE; THE SUBSCRIPTION PRICE IS ONLY | very largely attended.

THE AGGRESSIVE COX

PROPOSES TO RE-OPEN THE FIGHT ON THE TARIFF.

Congress Meets Long Enough to Adjourn in Memory of Logan-Opposition to Public Printer Renedict-Carlons Plea for a Pension-Some Blg Figures from

the National Books. WASHINGTON CITY, Jan. 5.—It now seems to be very generally conceded among members of the house of representatives that Hon. S. S. Cox will be appointed to fill the vacancy on the committee of ways and means caused by the retirement of Hewitt, and that Cox and Mills of Texas will be the rival conditions for the chairment of the rival candidates for the chairmanship of the committee in the Fiftieth congress. It is believed by many that when Cox be-comes a member of the committee on ways

and means, he will take an aggressive part and means, he will take an aggressive part in trying to bring about a reduction of the revenue duri, g this session of congress, and in doing so will represent the views of the administration. His method will probably be to bring about a compromise which will command votes sufficient to carry the house into the committee of the whole for the parties of considering represent hits which means of considering represent hits which have pose of considering revenue bills, which mo-tion made by Morrison was recently lost by the lade of so few votes. The Ropublican numbers of the committee, under the leadermemors of the committee, unfor the leader-ship of Fiscock, have practically decided to adopt a revenue bill which will be the platform of the party in the house on that subject. It will be about what it is well-known Hiscock favors—a reduction of internal revenue and an "ad-justment" of tariff. In the event of failure to reduce the resemble this resident to reduce the revenue during this session, it is hold by a great many members that the president will call an extra session of the Pittieth congress very soon after the 4th of March, but of course nothing definite can be stated on this subject until it is known that the present congress will take no action in

Speaker Carlisle in an answer to an in-quiry said to a representative of the United Press Tuesday; "I do not think an extra account of the party of the first that is, at an early Jay. IN MEMORY OF LOGAN-

The Senate and House Adjourn Immedi ately Upon Reassembling.

WASHINGTON CITY, Jan. 5.—Congress reas sembled Tuesday, but almost immediately adjourned out of respect to the momery of Gen. Logan. In the senate, immediately after the journal was read, Cullom cook the floor, and in a short but feeling address an-nounced the death of Gen. Logan, paying the dead senator an elequent tribute, and giving notice that at an early day he would submi resolutions appropriate to the occurrence and speak of the character and public services of the deceased statesman. He then moved to adjours, which motion was unanimously agreed to.

The chaplain of the house referred to the

death of Gen. Logan in his prayer Tuesday and invoked the confort that confer from a belief in the Savier spon the leads of the widow and children of the deceased. The announcement of the resignation of A. S. Hewitt was hald before the house and tabled. Thomas of Illinois then offered a resolution declaring the sorrow of the house at the death of Gen. Logan, and then moved an adjournment as a mark of respect to his mean ory. The resolution and motion were unant mously agreed to and the house adjourned.

A Woman's Pension Claim.

Washington City, Jan. 5.—A novel case of alleged promatal influence has turned up. Congressmen Wilson, of West Virginia, has received a letter from a woman in his district and such state of the conference. district who asks him to try to get a pension for her daughter. She claims that in July, lor her daughter. She chains that it July 18d1, there was some fighting near her place, and a Confederate soldier was wounded in the arm, and was brought to the house next door to her and had his arm dressel. She saw the whole operations and the broaden to the lower than the confederation of the same than the confederation of the same than the same t S. Borden and S. S. Obourn. How many more aspire to the position we are unable to say. Unless the department has experienced a change of heart with the incoming of the new year the most unpopular candidate will secure the appointment.

Cold Wave Warnings. Washington City, Jan. 5,—The report of Second Light Day, of the United States signal corps, on the system of cold wave warnings, has just been issued from the governsent printing office. Data is given showing the importance and value of the work, and liberal appropriations are urged in order that the system may be extended to every town in the United States. Libert, Day says that ranny citizens have signified their willingness to purchase flags and display them at their own expense if the signal office would telegraph the warning, but that the appro-priation available for the purpose during the past season was insufficient to meet the demand. It is recommended that the sum of \$5,000, to be expended in the extension of the system of cold wave warnings, be added to the estimates for the gscal year ending June

RAILWAY DISASTER MADE DOUBLY HORRIBLE BY THE FIRE FIEND.

Unfortunates Held by the Wreck and Slowly Roasted-Dreadtel Accident in Ohio.

The Cutastrophe Said To De Caused by a Dennken Crew-Nine Persons Known to Have Perished-Close Call for a Similar Horror in Massachusetts—One Passenger Burned, Twenty Wounded, and a Corpse Cremated.

Tiffin, Ohio, Jan. 5 .- An east-bound freight on the Baltimore & Ohio railway drawn by engine No. 726, while running Tuesday on an up-grade nine miles east of here and within half a mile of the village of Republic, gave out and was unable to make the grade. The conductor ran forward with a signal to flag the fast train No. 5, but it was too late; the train was less than a quarter of a mile distant running at the rate of sixty-three miles an hour, and it crashed into the freight, wrecking both engines and the buggage, express, smoking and one passenger car of the passenger train. Within an almost incredibly short space of time

THE WRICK WAS IN PLAMES and the injured passengers were being burned. The passengers in the two sleepers and one ceach escaped, numbering about lifty in number. Ninotean passongers in the smoker are all killed. One Irish emigrant alone escaped from the smoker, but after-ward died of his wounds. He did not give his name. The engineer of the passenger jumped and escaped with a dislocated knee. The fireman was pinned between two beams, crushing his hips. He lived three mortal hours in that position and then died.

caust-One Life Lost. SPRINGFIELD, Mass., Jan. 5.—The "Modoc passinger train from Albany, which should have arrived here about 5 a. m., was badly wrecked at Wittmeague early Tuesday mornwrecked at Wittmeague early 1 desauly morning. The "Modoe" consisted of one baggage, one mail, two sleepers, and several passenger cars, and is an express from Albany to Boxton. It is the Chicago express, making close connection between Chicago and Boston. The details of the accident are as follows: As the train rounded a curve a whisel on the forward reach of the because can broke grounds in the truck of the baggings car broke, caught in the guard rails, and threw the cars on a side-track just above the station. The train ran 200 yards and collided with loaded freight cars standing in front of the Agawan Canal cars standing in Front of the Against Char-company's building. The forward coaches were detailed, wrocked, and piled up. The baggage and hadlers was thrown off upon the other side into the origins of the local freight, which had just arrived. The express ongine did not leave its track but was cleared and run on. The air brakes were put in oporation on the sleepers and stopped them without damage or injury to the passengers

beyond a severe jestling.

The wrecked cars caught fire like a flash. The frightened passengers in the smoker and regular coach dragged themselves out through broken windows as best they could. Few know how they escaped. The Only Way to Conquer Dyspepsia

It is perfectly preposterous to intro-duce pepein and other artificial solvents into the stomach, in the expectation that they will assist digestion by setting on the food itself. They will not. Nor is it possible thus to overcome dyspepia. The only way to conquer that disorder, and prevent the numerous diseases and disabilities which it assuredly provokes, is to renew the activity of gas-tris action by strengthening the stomach. Hostetter's Stomach Bitters eradicates the most invoterate forms of indigestion by restoring vitality to the alimentary or-gans, and those which are tributary to them. The liver, the bowels, the kid-neys and the perves, no less than the stomuch, experience the invigorative of feets of that standard tonic, which pos-sesses alterative properties that greatly enhance its beneficial influence, and give e permanence to its effects which they would not otherwise possess.

Will Carlton the poet "Anonymous," Came into my store one day, And bought a stock for his family That lived just over the way.

He had fully determined to advertise For a home for one of his boys, But the prices I gave him convinced him That he had 'not one to spare.

The fact is my poetic education was sadly neglected at a very tender age by devoting too much valuable time to the clothing business, but in spite of this defect and an occasional attack of lunacy, I have reached a point where I can truthfully say, "Oh, what a fall my countrymen!" and just as winter is approaching too. We have several suits of Clothing to spare and have been known to give away mittens, "gallusses" and such small trifles. Come and see us.

THE ENIGHTS OF LABOR.

Platrict Assembly No. 170 Organized George H. Colling, son of Mr. and "in clife City.,

Yesterday atternoon delegates from several assemblies of the Knights of Labor in the vicinity of Januarille ssembled at the halt of Rock Assembly for the purpose of organizing a district ssembly to be known as "Assembly No 170." Mr. Richard Griffiths, of Chicago General Worthy Foremen of the Knights of Labor in America, was present, coming from Chicago on the afternoon train. and only pertains to the internal affairs of the order. All local organizations in this district will be under the jurisdiction of this district assembly, which will have meet Samatra is an all absorbing topic. its beadquarters and hold its meetings in Janesviile. The assembly passed several that what tobacco is raised be a good resolutions, some of which were of a article; one that will burn well; one that died last evening at 8 o'clock, of small general nature, among these are the shall be soft and silky in its feel, glossy following:

> order of General Master Workman Powderly forbidding the giving of assistance by any local or district assemthan all other things combined, and monopolies are urging it on. Once discarded from the ranks and the power to do good will then abow itself. Let it run aud our ruin is certain. Resolved, That we hereby ask the re-

peal of the present law of Wisconsin-relating to the bours of labor, as there is nothing definite to it, and in its place s law to be made in a more form on the 10-hour principle, whereby factories cannot work their belp but 10 hours. Such laws will be orought before the legislature, and we ask at the hands. of 'our assemblyman" and senator, their

assistance to pass the sours:

"Resolved, That we denounce in the most foreible terms, all acts of sperchism and socialism, and likewise to keep from our ranks all such believers and such speeches to be made in any of our locals under penalty of expulsion.

Resolved, That we commend in the highest terms the recent report of Frank Flower, commissioner of Labor and Biatistics, as an able and honestly compiled work, and that in the hereafter we do everything in our power to help and Out of these has the stone basement assist him in his endeavors to gather sause of labor.

to the general welfare, Mr. Griffiths speaks in high terms of

o Chicago this afternoon. Another meeting of the District Asembly will be held in this city in the

near future, for the purpose of concludng the organization, the adoption of bylaws, and other matters pertaining to the nstitution of District Assembly 170. Mr. Griffith is perhaps the most conservative of all the leading members of the Knights of Labor, and while his conservatism has made for him some opposition in the order, not one of his

opponents would charge him with having done an act which he did not consider at the time for the hest. He has many opponents who believe in radical or somiradical movements, while he is wholly conservative; but among his opponents it is doubtful if there could be found a single enemy. Many may disapprove his methods, but all love the man. He is recognized by all as the proneer labor organizer, and a patriarch among the labor reformers of America.
